

Teens Signature Facial

It's a fact that most teenagers will experience clogged pores, acne and breakouts at some point during their teen years. Despite being busy with school, their social life, and sports, it's very important for them to make time to pay attention to their skin and to realize the importance of good skincare.

It takes a professional aesthetician to properly prepare, cleanse, extract and soften a teenage skin. AK Teens Facial is designed to specifically address breakouts that are frequently associated with adolescent skin. Teen facials typically begin with a deep cleansing, followed by gentle extractions. A healing treatment mask will then help to rehydrate dry, flaky skin, or eliminate oily particles. Part of getting a facial is receiving a valuable lesson from our expert on how to care for their skin properly for a better prognosis and less imperfections.
